**FEE AUDITOR'S FINAL REPORT REGARDING  
FEE APPLICATION OF WALLACE, KING, MARRARO & BRANSON, PLLC  
FOR THE SEVENTH INTERIM PERIOD**

This is the final report of Warren H. Smith & Associates, P.C. ("Smith"), acting in its capacity as fee auditor in the above-captioned bankruptcy proceedings, regarding the Seventh Interim Fee Application of Wallace, King Marraro & Branson, PLLC (the "Application").

**BACKGROUND**

1. Wallace, King, Marraro & Branson, PLLC ("Wallace King") was retained as special litigation and environmental counsel to the Debtor. In the Application, Wallace King seeks approval of fees totaling \$629,450.00<sup>1</sup> and costs totaling \$177,459.68 for its services from October 1, 2002, through December 31, 2002.

2. In conducting this audit and reaching the conclusions and recommendations contained herein, we reviewed in detail the Application in its entirety, including each of the time entries included in the exhibits to the Application, for compliance with 11 U.S.C. § 330, Local Rule 2016-2 of the Local Rules of the United States Bankruptcy Court for the District of Delaware, Amended

---

<sup>1</sup>Although the Application requests \$629,450.00 in fees for this period, this amount reflects a 40% reduction, \$404,076.00, for time spent with regard to the Honeywell litigation. Notwithstanding this discount, the actual amount of fees reviewed is \$1,033,526.00.

Effective February 1, 2001, and the United States Trustee Guidelines for Reviewing Applications for Compensation and Reimbursement of Expenses Filed Under 11 U.S.C. 330, Issued January 30, 1996, (the "Guidelines"), as well as for consistency with precedent established in the United States Bankruptcy Court for the District of Delaware, the United States District Court for the District of Delaware, and the Third Circuit Court of Appeals. We served on Wallace King an initial report based on our review and received a response from Wallace King, portions of which response are quoted herein.

## **DISCUSSION**

### General Issues

3. In our initial report, we noted that professionals SCD, WH, MM, BB, CHM, RLS and NAB often did not include sufficient detail in their time entries. Rule 2016-2(d) of the Delaware Local Rules states "activity descriptions . . . shall be sufficiently detailed to allow the Court to determine whether all the time, or any portion thereof, is actual, reasonable, and necessary . . ." This issue has been raised in previous reports and we have advised certain professionals to provide more detailed time entries in the future. We again asked that Wallace King continue to advise its professionals regarding this matter. Wallace King responded as follows:

In prior conferences with the Fee Auditor we agreed that our billing descriptions would be general because our adversaries were reviewing our invoices as filed with the Court in the bankruptcy proceedings and detailed information would divulge our trial strategy and other privileged information. The trial concluded on February 11, 2003 and Findings of Fact and conclusions of Law were filed with the District Court on April 14, 2003. As of this date our next filings will be more detailed.

We appreciate the response.

4. In our initial report, we noted that professionals WH, MM, TP, BB, CHM and TM often tended to lump time entries. Local Rule 2016-2(d)(vii) requires “[a]ctivity descriptions shall not be lumped – each activity shall have a separate description and a time allotment.” We asked that Wallace King advise these professionals to avoid such lumped time entries in the future. Wallace King’s response is provided below.

We have been careful not to “block bill” time on invoices. However, we will inform all time-keepers again and continue to review each bill carefully to ensure that the Court’s rule is carefully followed.

We appreciate the response.

#### Specific Time and Expense Entries

5. In our initial report, we noted that throughout the Application period, TM (\$135), RM (\$120), BB (\$135), NAB (\$100), MM (\$135), RLS (\$175), ACZ (\$210) and TP (\$270) spent a total of 402.80 hours and \$51,220.50 for activities which may not be compensable. See Exhibit A. Paragraph II. E.7.of the Guidelines states, “[f]actors relevant to a determination that the expense is proper include the following: . . . Whether the expenses appear to be in the nature of nonreimbursable overhead . . . Overhead includes word processing, proofreading, secretarial and other clerical services, . . .” We asked Wallace King to review Exhibit A and to explain why these activities should be considered compensable. Wallace King’s response is included as Response Exhibit 1. We accept the explanation and have no objection to these fees.

6. In our initial report, we noted that from October 1, 2002, through October 31, 2002, SCD (\$270), RLS (\$175), and WH (\$350) spent a total of 30.10 hours and \$7,732.00 on tort research and drafting memos regarding tort issues. The entries are provided below.

10/01/02	SCD	Research re tort issues (7.6 hrs.);...	7.80
----------	-----	--	------

10/03/02	SCD	Research re tort issues (3.9 hrs.); drafting of memo re same (1.2 hrs.)	5.10
10/04/02	SCD	Research re tort issues (3.7 hrs.); draft memo re same and send to Mr. Marraro (4.6 hrs.).	8.30
10/05/02	SCD	Research re tort issues (3.1 hrs.)	3.10
10/11/02	RLS	Research tort issues (5.0 hrs.)	5.00
10/16/02	WH	...;legal research re tort issues (1.0 hrs.);...	10.10

Paragraph I.E. of the Guidelines states, “. . . [i]n evaluating fees for professional services, it is relevant to consider various factors including the following: the time spent; the rates charged; whether the services were necessary to the administration of, or beneficial towards the completion of, the case at the time they were rendered; whether services were performed within a reasonable time commensurate with the complexity, importance, and nature of the problem, issue, or task addressed; . . .” We asked Wallace King to explain what tort issues were being researched, how they related specifically to this case and why these activities took so much time. After discussion with Wallace King, it was agreed that only a general explanation was required here because of sensitivity surrounding numerous trial issues. That explanation is provided below.

In general, the torts involve strict liability and negligence, including failure to warn. Honeywell is the successor in interest to Mutual Chemical Company who disposed of approximately 1.5 million tons of toxic chromium on property now owned by ECARG. Honeywell raised defenses of assumption of the risk, World War II governmental involvement and statute of limitations.

We accept this explanation and thus have no objection to these fees.

7. We further noted that from October 6 through October 11, 2002, TM (\$135) spent a total of 40.40 hours and \$5,454.00 preparing an index of invoices. The entries are provided below.

10/06/02	TM	Prepare index of invoices for damages binders (8.5 hrs.)	8.50
10/07/02	TM	...; prepare index of invoices for damages binders (5.9 hrs.)	6.30
10/08/02	TM	Continue to prepare index of invoices for damages binders (9.6 hrs.)	9.60
10/09/02	TM	Continue to prepare index of invoices for damages binders (7.2 hrs.)	7.20
10/10/02	TM	...; continue to prepare index of invoices for damages claims binders (8.1 hrs.);...	9.00
10/11/02	TM	...; continue to prepare index of invoices for damages claims binders (1.1 hrs.)	18.00

Paragraph I.E. of the Guidelines states, “. . . [i]n evaluating fees for professional services, it is relevant to consider various factors including the following: the time spent; the rates charged; whether the services were necessary to the administration of, or beneficial towards the completion of, the case at the time they were rendered; whether services were performed within a reasonable time commensurate with the complexity, importance, and nature of the problem, issue, or task addressed; . . .” We asked Wallace King to explain why preparing this index took so much time.

Wallace King replied as follows:

Please see response to No. 5, above. The invoices referred to were damage exhibits covering over 20 years. She had to review each invoice and make a preliminary relevancy determination. In many cases the invoices had to be matched up with checks, which was a very time consuming process.

We accept the response and have no objection to these fees.

8. In our initial report, we noted that throughout the Application period MM (\$135) and BB (\$135) spent time traveling in-town for business purposes. The time spent was 13.5 hours for a total of \$1,822.50. See Exhibit B. While it is arguable that these were routine clerical tasks and therefore completely noncompensable, at best the travel time involved appears to fall into the category of non-working travel. Rule 2016-2(d)(viii) states, “[t]ravel time during which no work is performed shall be separately described and may be billed at no more than 50% of regular hourly rates.” We asked Wallace King to review the time entries and explain why the time was charged at full hourly rates. Wallace King responded as follows:

The in town travel was the work related activity in itself. The in-town travel was not to attend meetings. For example, the task was to make late night FedEx where a filing had to be at the Court the next day and no messenger service was available at the time the package had to be delivered. However, MM 's. entries for 10/15, 11/11 and 12/10 should only have been billed at 50%.

We accept Wallace King's explanation, as well as the voluntary reduction of 50% for the three entries cited in the response. Thus, we recommend a reduction of \$310.50 in fees.

9. In our initial report, we noted that between November 1 and December 18, 2002, four professionals billed time for research regarding *Daubert*. The total time expended was 36.80 hours for \$5,446.00. The entries are provided below.

11/01/02	TP	Research re <i>Daubert</i> issue (7.8)	7.80
11/01/02	ACZ	Research re <i>Daubert</i> issue in conjunction with Honeywell motion re Dr. Belsito(4.6 hrs.)	4.60
11/01/02	RLS	Draft motion to exclude invoices produced in violation of scheduling order (2.8 hrs.); research <i>Daubert</i> issue (4.3 hrs)	7.10
11/04/02	RLS	Research re <i>Daubert</i> issue (3.1 hrs); draft motion in limine to exclude invoices (5.7 hrs.)	8.80

11/13/02	NAB	...legal research in connection with <i>Daubert</i> Motions on “fit” issue (.8 hrs).	11.80
12/17/02	RLS	Research whether court may exclude expert testimony without Daubert hearing (4.0 hrs); research Daubert testing - may court exclude expert testimony because expert did not follow suggested methodology (4.1 hrs).	8.10
12/18/02	RLS	Research whether court may exclude expert testimony without Daubert hearing (3.8 hrs.); research case law whether witness qualifications fit Daubert expert standards (4.3 hrs.).	8.10

Paragraph I.E. of the Guidelines states, “. . . [i]n evaluating fees for professional services, it is relevant to consider various factors including the following: the time spent; the rates charged; whether the services were necessary to the administration of, or beneficial towards the completion of, the case at the time they were rendered; whether services were performed within a reasonable time commensurate with the complexity, importance, and nature of the problem, issue, or task addressed; . . .” Without further explanation, there appears to be a duplication of effort regarding the research. We asked Wallace King to explain why this research required four professionals and to address the specific contribution of each. Wallace King’s response is provided below.

There has been no duplication of effort. *Daubert* is a complicated legal issue and has a four-part test to challenge expert testimony depending on the facts. Each of the attorneys was working on different motions *in limine* where an aspect of *Daubert* was an issue. Each attorney was working on distinct *Daubert* issues where different lines of cases were at issue. *Daubert* was a short hand reference in the invoices to describe the specific issue they were working on. All involved *Daubert* but each involved different aspects of *Daubert* with different case lines at issue. ACZ was working on the motion with TP. NAB is not an attorney and the attorney who is actually listed in the invoice in connection with the research is WH not NAB. WH worked on different *Daubert* issues than TP, ACZ or RLS.

We accept the explanation and have no objection to these fees.

10. In our initial report, we noted that for the Application period, Wallace King seeks reimbursement in the amount of \$10,841.56 for secretarial overtime and \$2,452.50 for facilities management personnel overtime. Paragraph II. E. 7. of the Guidelines states, “[f]actors relevant to a determination that the expense is proper include the following: . . . Whether the expenses appear to be in the nature of nonreimbursable overhead . . . Overhead includes word processing, proofreading, secretarial and other clerical services, . . .” In the absence of accompanying detail, it is not possible to know whether these overtime expenses should be compensable. We asked Wallace King to provide the necessary documentation and explanation to support the request for overtime compensation for both secretarial and facilities management personnel. Wallace King replied as follows:

As noted in the response to No. 5, the period in which the secretarial overtime and facilities management charges were incurred was during the preparation of the pre-trial order, pre trial brief and 13 *in limine* motions. This was a period of extremely high pre trial activity with very tight deadlines that required an extraordinary resource commitment. Extraordinary secretarial overtime was required to make timely filings. Word processing assistance (secretarial overtime) was required many nights after mid night in order to complete the work. Facilities management services are a direct cost to the firm for on-site services and were required for the pre trial order and accompanying exhibits.

We accept Wallace King's explanation and have no objection to these expenses.

## **CONCLUSION**

11. Thus, we recommend approval of fees totaling \$629,139.50 (\$629,450.00 minus \$310.50) and costs totaling \$177,459.68 for Wallace King's services from October 1, 2002 through December 31, 2002.

Respectfully submitted,

**WARREN H. SMITH & ASSOCIATES, P.C.**

12/12/02	BB	Prepare FedEx package to Mr. Hogan in Buffalo and deliver same to after hours FedEx office at Dupont Circle (1.3 hrs.).	1.30

Response Exhibit 1

The overwhelming work questioned was in connection with the preparation of the pre trial order that included the exhibits. Over 5500 multi page exhibits were listed by the parties. We were directed by Judge Cavanaugh to avoid duplications and to streamline the exhibit lists. In order to complete the work, we had the enormous task of assembling each exhibit from each parties list, preparing binders, reviewing each exhibit, discussing the exhibits with adversaries to determine if we could agree on a joint list, preparing a summary and ultimately preparing an exhibit list for the pretrial order. The two other major tasks involved preparing and responding to 13 motions *in limine* and preparing and filing the Grace Defendants Pre Trial Brief. This work was time critical and was undertaken at the same time pre-trial preparation was occurring. TP, an attorney was deeply involved in preparing certain *in limine* motions. Her work included working with experts to prepare declarations in support of the motions. To the extent her entries appear clerical in nature, they are not. She prepared her own briefs in support of the motions and as any capable attorney, she reviewed her product to assure that it was professionally prepared. ACZ is also an attorney who was assisting in the preparation of the pre trial brief. His one entry regarding proof reading was for the final preparation of the part of the brief that he researched and prepared. RLS, an attorney was also very involved in preparing several motions *in limine* and responding to certain such motions of the Grace Defendant's adversaries. Again, her work was not clerical but was her final preparation of her work product to be submitted to the Court. The balance of the Exhibit A entries are for paralegal work in connection with the exhibits and pre trial work described above. For example, TM's entry on 10/02 regarding the preparation of binders of invoices related to her work to assemble the voluminous damage documents into chronological order (over 20 years of relevant exhibits), match checks with invoices , account for missing invoices or checks, prepare an exhibit list of damage documents and arrange the exhibits for review by the attorneys.
